Invest in Aussie jobs

Australia's finance sector workers are calling on our banks, insurers and other finance institutions to give something back to the people who have made our industry strong.

Australia's finance sector remains the strongest in the world but recent tough times have dealt our multi-billion dollar industry a heavy blow. Bank takeovers, offshoring and the Global Financial Crisis have cost workers in the sector thousands of jobs.

The Finance Sector Union believes now more than ever it's time our banks and financial institutions make a bigger investment in Australia and Australian jobs.

Sign-up to our Invest in Australia campaign and help make sure Australian banks, insurers and financial institutions invest in our future.

For more information go to www.fsunion.org.au or call **1300 366 378**.

Over 5,000 Australian finance sector jobs sent off-shore over recent years.

Another 5,000 finance sector jobs cut since the Global Finance Crisis occurred.

Thousands more jobs predicted to be slashed.

You can join Australian finance workers keep our finance industry strong by supporting our campaign for:

- ★ **Job Protection**, by putting end to offshoring Australian finance jobs to countries overseas.
- ★ **A skills fund**, that would help arm finance workers with the skills they need to tackle the new challenges facing Australia and our important finance sector.
- ★ **Better payments for employees**, for finance workers who do lose their jobs to help them get back on their feet and back into work, similar to arrangements for manufacturing workers.
