FSU
AUSTRALIA

Please sign below if you support the Unions campaign to remove NPS / ACFL objectives from the performance scorecard.

We the undersigned Westpac employees, support our right to fair performance objectives as outlined in the Westpac Group Enterprise Agreement 2010.

We are concerned that the Net Promoter Score / Active Customer Feedback Loop performance objectives set for the current period are unfair because they can be influenced by too many factors beyond our control.

We support the FSU in raising these concerns and ensuring our rights under the Performance Objective clause in the Westpac Enterprise Agreement are respected.
