

AWARE SUPER FSU MEMBER STATEMENT

31 May 2022

We have made Aware one of the top superfunds in Australia. We have worked hard through the pandemic to achieve the best outcome for members. Aware has committed to being the best place to work. We need you to deliver this now by providing a real wages increase.

We won't accept an offer that sees us going backwards on our wages.

Inflation is currently at 5.1%. So the current offer of 3% is more than 2% under current inflation figures and is really poor.

What you have offered us is not good enough and does not reflect the values each and every Aware Super staff member demonstrate on a daily basis.

Come back and try again.

Show us what a best workplace can really offer to value its employees.

Yours sincerely,
Aware FSU members
